Hip	Passing via Chiropractor Evaluation	GOOD via OFA	PASSING
Elbow	Passing via Chiropractor Evaluation	NORMAL via OFA	PASSING
Cardiac	-	NORMAL via OFA	PASSING
Thyroid	-	NORMAL via OFA	PASSING

*\*Please note, the final results of health testing for the puppies cannot be determined at this time - only predicted based on the parentage results. Von Hohenhalla Dobermans recommends all puppies with breeding potential to be fully health screened including, but not limited to: DNA, Hip, Elbow, Cardiac, and Thyroid testing at 24-months of age.*
